Our Mission:

As a community-based non-profit charitable organization, Hope for A Healthier Humanity (HHH) is committed to assisting the developing nations of the Caribbean and Latin America achieve improved and more sustainable health care delivery. HHH supports Ministries of Health, health agencies and providers, health science universities and schools of higher learning and individuals in need of medical, dental or health care services.

HHH is committed to the belief that education is key to achieving sustainable change. Accordingly, HHH focuses on the development of bilateral international (educational) partnerships and exchange programs for medical, dental and nursing students. These partnerships allow faculty, students and educators from the U.S. to obtain cross-cultural experiences in various countries throughout the Caribbean and Latin America, affording their Hispanic counterparts and their academic affiliations similar opportunities here in the U.S.

HHH is further committed to mobilizing and utilizing health professionals as volunteers. HHH firmly believes that there is no one so rich that he cannot receive or so poor that he cannot give. As a result, HHH engages in volunteerism in all aspects of its operations, both domestically as well as internationally.

Once again, HHH is pleased to report that our prior year, 2007, was both busy and successful. Throughout the year HHH was able to provide assistance to the poorest of our brothers and sisters in the Dominican Republic and Haiti, Uruguay, Panama, El Salvador, Nicaragua and Honduras. In 2007 HHH shipped and hand carried to its partnering countries in the Caribbean and Latin America over \$1.7 million in donated medical equipment and supplies and essential medicines. HHH also engaged in significant project activities, including community health educational programs in Panama and El Salvador, emergency relief efforts in Nicaragua and the Dominican Republic and collaborative planning with the Ministry of Health in the Dominican Republic.

One of the highlights of 2007 was the development of a formal, written accord with the First Lady of Panama, Ms. Vivian Fernandez de Torrijos. Through this agreement HHH was able to ship 500 new wheelchairs to Panama, in collaboration with Free Wheelchair Missions (May 07); send an additional 40 foot container of medical and dental equipment and supplies (June 07); execute a dental mission trip (August 07) and provide community health education for their Promotores de la Salud (August 07).

We are deeply grateful to the many friends and supporters and volunteers who have made HHH part of their lives. Without your generosity we simply could not achieve all that we do. In the names of all those whom we strive to serve, we thank you. We wish you the very best for 2008 and pledge to keep you informed of our activities and progress; progress which is truly yours as well. Finally, we hope that the information contained in our 2007 annual Report gives you a better idea of how your contributions and support have been put to good use. Being faithful stewards of your generosity and trust is extremely important to us.

For further information on HHH or any of our activities, please feel free to contact us at hopeforahealthierhumanity@gmail.com.

Mariano Rivera of the New York Yankees

HHH Honors NY Yankee Pitcher, Mariano Rivera, with 2007 Humanitarian Award

On November 2, 2007 HHH held its annual Humanitarian Award Cocktail Party at the New York Executive Offices of Ropes & Gray, LLP. This year's recipient of the award was the star closing pitcher of the NY Yankees, Mariano Rivera. Mr. Rivera was given this award in recognition of his untiring efforts in support of the poor throughout not only his home country, Panama, but in the U.S. and the Dominican Republic as well. In accepting this award, Mariano expressed his deep appreciation and pledged to continue his efforts throughout the Caribbean and Latin America as well as his support of HHH's programs.

HHH and the First Lady of Panama enter into Formal Accord

According to the First Lady of Panama, Ms. Vivian Fernandez de Torrijos, over 40% of all Panamanians live in poverty. On March 30, 2007 HHH leadership met with First Lady Viviana Fernandez de Torrijos in New York, where she was visiting in order to address the General Assembly of the United Nations. The First Lady and Dr. Healey Sedutto, Executive Director of HHH entered into an accord, whereby the Panamanian government and HHH mutually agreed to work collaboratively towards the advancement of health care and health sciences education throughout Panama.

(L to R) Luz Mercado, Dr. Mary Healey-Sedutto, The First Lady of Panama, Viviana Fernandez de Torrijos and Panamanian Ambassador to the Dominican Republic, Miroslava Rosas Vargas discuss future activities.

Community Health Education and Dental Brigades Continue

In 2007 HHH offered community health and nursing education to over 40 men and women from El Salvador and Panama as well as the provision of medicines, supplies and free dental services to the needy of the Dominican Republic and Haiti, Uruguay, Panama, El Salvador, Nicaragua and Honduras. Dental mission trips are

particularly in demand, and most of the services provided are in extremely rural areas. As a result HHH volunteer dentists must be very flexible and creative, often working in areas with no running water or electricity.

HHH Participates in SOUTHCOM Discussions Re: Partnerships in Latin America

In December 2007 HHH was invited to participate in a high level discussion with SOUTHCOM (Southern Command of Armed Services), the State Department, the Department of Health & Human Services and USAID re: collaborative strategies for advancing partnerships and support for the countries throughout the Caribbean and Latin America. This event was in addition to HHH's involvement (invitation only) in another high level discussion; the President's White House Conference on the Americas (June 07), where Dr. A. Stanley Kosan, Chairman of HHH, participated.

The College of New Rochelle School of Nursing and HHH enter into Partnership

Following the 30th Anniversary celebrations of the School of Nursing of the College of New Rochelle (CNR), at which time (April 07) Dr. Healey-Sedutto delivered the keynote address, CNR and HHH entered into a formal partnership, aimed at advancing the cross-cultural education of the students of CNR and afford CNR faculty opportunities for international teaching.

Prison Care continues in 2007

In 2006 HHH began a specialty service - caring for prisoners throughout Latin American countries. This effort began in November of 2006 in the Dominican Republic and was extended again in the Dominican Republic (Jan 07) and in Panama (Aug 08). Requests for similar assistance have been received from El Salvador and Guatemala, as well as Honduras. In Panama, female prisoners prepared a special celebration, including folk dances, to thank HHH for their support and assistance.

Female Prisoners welcomed HHH in Panama.
